TASTE OF PURE NATURE

*is producing olive oil, smoked fish, fish products  
and spreads, using traditional recipes and following their  
core business idea - production of indigenous delicacies of the local,  
Mediterranean region.*

# Trenton

Keeping in pace with the needs and trends of the market, Trenton expanded their product range by introducing new honeys with interesting, unusual flavours such as lemon, rosemary, thyme, and lavender, to join the already recognized flavours of acacia, chestnut and Dalmatian floral honey.

Recognized for production of olive oil, olives, capers and fish products of superior quality, Trenton has always been paying special attention to the quality and health safety of its products, in collaboration with leading experts and approved laboratories.

To that end, Trenton introduced HACCP and IFS systems, as a foundation for the company's quality growth and as a guarantee of constant guidance in producing healthy, high-quality products that fully meet the standards of demanding customers. In addition, all products are carriers of the **Superbrands** status, and Trenton's bianco-style codfish and anchovies are the carriers of the **Croatian Quality** status.

# Bianco-Style Codfish

We are especially proud of our product bianco-style codfish, which is specially prepared according to traditional recipes of our grandmothers. The inherent taste of the codfish is improved by basic spices: onion, garlic and parsley.

Codfish is a particularly nutritious, high-protein food. Trenton's 'Bianco-Style Codfish' is a product that is a combination of traditional cuisine and the 'fast food' trend of modern society. Its beauty is in the flavour and scent that comes from the traditional recipe, and its secret is long-lasting without the use of any preservatives and other additives.

*Bianco-Style Codfish is a proud holder of the 'Croatian Quality' sign.*
